Oxford County Advertiser.

FRIDAY, MARCH 19, 1886.

[Entered as Second Class matter.]

Read Hathaway's ad. A boy of the right sort can have a good situation.

Mrs. M. L. Bartlett, Newry, favors us with some old papers. Thanks.

A California mining story is shortly to commence in this paper.

F. E. Briggs, of Woodford, says something that is of interest to all sugar makers. See ad.

Rev. J. S. Davis, formerly of this vicinity, recently lectured at St. George's Hall, Hamilton, Canada, on the unique subject, "Hell: Its Nature, Its Fires, and the Lord's Mercy There."

The Evening Express of Portland seems to be thriving. It comes to us in an enlarged form Monday and taken altogether is a very readable paper for a penny. Its strong feature is its local news of the city.

We recently received the following from an old subscriber: "Please send the Advertiser for the next six months. I cannot get along without it. I have never gone without my paper but to the wit of your paper."

Arrangements are being made for a reunion of the 10th Maine in Portland at an early date. The regiment had its last reunion in 1876. All the members are requested to attend. The address is to be given at the residence of Mr. J. M. True, secretary, Bethel, Maine.

The State Board of Health have published certain "Preventive Disease Circulars," including Typhoid Fever, Diphtheria, Scarlet Fever and Smallpox. It has been our aim to make them of less practical and useful. At any time, especially when these diseases are prevalent, they should be sent to the physician for distribution where they are needed. Address A. C. Young, M. D., Secretary, Augusta.

The Centennial History of Norway is being illustrated by A. F. Poole, who is now at the Beal's House and is ready to take orders for views of residences and portraits. They are to be lithographed and in the hands of the printer. The work is of town, male and female, may be represented also the citizens of the present day and their residences. Call on him or address him at Newry.

As our mail is a recent one, we have the present is a good opportunity for our patrons to inspect the figures on the printed address slip. In all cases where the "X" appears as the date to which payment has been made, it may be regarded as conclusive evidence that the case is deserving special attention. And in the case of the "X" where the figures now indicate 2 or 4. The last figure on the label indicates the year to which the subscription is paid.

Information Wanted.

A town votes to raise a specified sum of money. Then the town votes to discontinue a certain part of it. The said tax is paid to the collector before such a date.

In this process just to all the tax payers.

Should a town make such a discount? What class of tax payers does it burden and what class does it help?

Who takes advantage of it? Is it an advantage to the tax payers? Is it a benefit to the collector?

What would be the wise ones give us information?

Under the discount system how much does it cost the town of Norway to collect its taxes?

What would be the cost of collection if no discount was allowed?

Who has the authority to say when the taxes must be collected and turned into the treasury?

Let us know all about these things so that next year the collector can act intelligently in this matter.

GREENWOOD.

The late blizzard cut its strange unites in this town as well as in the vicinity. But left the traveling much better than in most of the lower towns. Young Hill, French Mountain and other elevated localities were almost completely cleared of snow leaving nothing but ice except in spots where the drifts are perfectly smooth. The old Wardwell barn on Young Hill being empty was blown to pieces and the house completely buried and filled with snow. Peter Buck, who lives on the south end suffered most severely. The wind raged with violence for several days. The house was buried in a solid drift so as to impede the entrance until they were released by the neighbors. The stock were obliged to subsist without food or water during most of the siege.

Dana B. Grant lost a cow from overeating of meat.

John Roberts is laid by with an attack of rheumatism.

Those who have dairy farms are now engaged in packing ice.
